Strike Gold with Tropicanna Gold!

Tropicanna® Gold is featured in Better Homes and Gardens magazine in an article about plants with dramatic foliage.

Foliage plants are hot commodities – their colors, shapes and patterns bring immediate impact – and there are none better than Tropicanna Gold!

Better Homes & Gardens art director Scott J. Johnson shares his secrets to designing compelling foliage plant combos, and says “For impact, go with the thriller, filler, spiller formula: include an upright, bushy, and trailing plant in each pot”. He recommends Tropicanna Gold as a magnificent thriller plant.

So tell your customers about Canna Tropicanna® – with their stunning and colorful foliage, they look great from Spring to Fall!

Best regards,

Anthony TesselaaR Plants
